PHILOSOPHY

Renaissance Recovery Resources is a full-service substance abuse treatment agency providing prevention, education, outpatient and intensive outpatient services. Our mission is to serve Salem’s diverse community using diverse resources and we do not subscribe to a single treatment model. Renaissance Recovery Resources believes each individual’s case is unique; therefore, we embrace and utilize a variety of treatment models.

We understand that recovery can sometimes be a long process; however, we do guarantee that each individual will be presented all the skills and tools necessary to achieve long-term sobriety, if these skills and tools are utilized effectively.

In order to deliver this promise, our treatment approach is unique. We embrace traditional treatment methods, but also integrate technology by using the internet as a treatment tool. The internet provides community support resources and can provide valuable education.

Our promise to you is that you will be receiving our services with respect, receive impeccable service from our seasoned professionals, and receive services in a clean, professional, and therapeutic environment.

You will find our program goals themed throughout our services and your personalized care:

• Understand the disease of addiction
• Increase sobriety time
• Learn how to utilize community/family/social support
• Build a sober lifestyle
• Recognize potential dangers to your recovery
• Improve self-care

SERVICE DESCRIPTION

Renaissance Recovery Resources offers a DUII Education/Information Only Program, DUII Rehabilitation Program and a Standard Outpatient program that includes three levels of care: Education/Information Only, Outpatient (OP) and Intensive Outpatient (IOP). When determining your appropriate level of care, we use the guidelines set by the American Society of Addiction Medicine (ASAM). The Information/Education Only Program, consists of an assessment, drug screens, individual sessions, and group sessions (1 group per week for 8 week, each group is 2 hrs.) OP consists of an assessment, drug screens, individual sessions and group sessions, 2 groups per week for 90-days. IOP includes all of the services listed above; however, IOP consists of 16-weeks and 9-hours of treatment per week.

Each level of care consists of different treatment lengths. The length of treatment is determined by the outcome of your initial Assessment. If you are being referred by a 3rd party, Renaissance Recovery Resources may ask you to sign a Release of Information, so we may collect your previous treatment records.

Your initial service will include a comprehensive assessment and treatment plan formulation. Please note, please allow up to two hours for your initial appointment. Your treatment services will consist of individual sessions and group sessions. Outside participation in community-based recovery support groups may be required (may be internet-based). Also, we require all individuals receiving services to participate in random drug screens as a tool to measure sobriety. The level of care you are assigned influences your treatment length and frequency of services.

Please be aware that these are revolving groups. This means as new members begin their program, they may be placed in this group. Group members’ start dates and end dates may differ.

Also, payment for each service is expected at the time it is rendered. Please be prepared with full-payment or co-pay or you may not be allowed to participate in the sessions. Please speak with your counselor privately if personal finance issues are affecting your participation.

Renaissance Recovery Resources, Inc.
11/2014
In an effort to extend courtesy to all group members, we ask that you attend all sessions. If you are expected to be late to a group session, please call your primary counselor. Also, please refer to our policy regarding absences.

Finally, we ask that you share our commitment of respect to the premises, as we share our office building with other businesses.

DRUG & ALCOHOL USE POLICY
INCLUDING DRUG SCREEN MONITORING

Renaissance Recovery Resources promotes drug-free recovery and environment. In order to monitor sobriety, we conduct random drug screens throughout your treatment program. If you have used or think about using while receiving services, please contact your counselor, as we are here to help. A positive drug screen may affect your level of care and/or treatment length. We reserve the right to test for any substances. Also, if you are receiving any DUII services, a positive drug screen will result in automatic restart of your program. This is mandated by the State of Oregon.

Renaissance Recovery Resources makes no exceptions to this policy, including OMMP (Oregon Medical Marijuana Program). Continued use of any substance(s) may be a trigger to others and impede recovery efforts. Please keep in mind that recent evidence suggests that second-hand marijuana smoke may result in a positive drug screen.

If you are prescribed any form of medication prior to admission, or if you receive prescription medication while in treatment, please provide written verification from your prescriber. If we
are unable to determine that a positive drug screen is the result prescribed use, then it will be considered as relapse/continued use.

Please check with a medical professional before consuming any over-the-counter medication, which includes cold medicines that sometimes contain alcohol.

If you are referred to our program because of prescription issues, we will closely examine your case, work with your prescriber, and provide referrals to medical professionals who may be able to offer non-habit forming alternatives.

It is also our policy that all drug screens are observed. We use a variety of drug screens including urine analysis, mouth swab, and hair follicle testing. Any refusal of testing may result in an automatic positive result.

We suggest to always be expecting a drug screen every time services are rendered. Drinking large quantities of liquid just before the screening may negatively affected the results. We consider any specimen to be dilute if the creatinine level is found to be below 20ng. Dilute drug screens will result in automatic retesting, and consistent dilute screens will be considered positive.

Per safety awareness/concerns, please notify your counselor if you knowingly or may have any infectious disease(s) before participating in a drug screen. Your confidentiality will be maintained.

All drug screens will be sent to a medical lab or tested by on-site using E-Screen technology, contracted with Renaissance Recovery Resources, for testing. All results will be validated. Results are considered final by this agency, but each client has the right to request a re-test. If your specimen is testing using E-screen technology, you may request to have your specimen tested by Redwood Toxicology, which you will not assessed an additional charge. Please note: Any request for a re-test will result in an additional charge.
All clients will be required to participate in the chain-of-custody following the collection of a drug screen. You will be asked to sign the seal and date, if the specimen is being sent to the lab for testing.

By signing below, you are stating that you have read and understand the Drug Use Policy and Drug Screen Monitoring set forth by Renaissance Recovery Resources. You are also agreeing to comply with all articles stated in this policy.

In the case that the policy holder cannot be contacted/reached, then the client’s parent/legal guardian will be asked to sign the Release of Information and sign the Financial Fee Agreement. If the legal guardian is a foster parent, then we will require the referring agency to sign the Release of Information to the insurance carrier. The name and signature on the Financial Fee Agreements makes this individual ultimately responsible for any/all balance(s) on a client’s account.

From the date of your last treatment contact, you have 60-days to pay your balance in-full, if any. If a balance remains unpaid for longer than 60-days, then Renaissance Recovery Resources may forward your balance to an outside collection agency. Remember, if you are unable to pay your balance in-full by the 60th day, you may call to establish a binding payment plan with our agency.

Renaissance Recovery Resources may also suspend services if an individual’s co-pay balance exceeds $300. Treatment would resume once balance is below $300.
